Team Building and Leadership Events

The Melting Pot – Team Building for all Generations

A little healthy competition in the kitchen, guided by a celebrity Top Chef is a fun and energetic way for your staff to be creative together. Dinner is prepared by multiple teams as they compete against each other, and the clock. You will be amazed at how quickly the barriers disappear and how lasting this experience is amongst all of your guests.

Step Up to the Plate – Quick Fire Challenge

Team dynamics and quick decision making skills all play a role in this event. Original dishes will be created, critiqued and served to the entire group. The judging will be done by your own appointed leaders and the winners will enjoy a special VIP Meet and Greet with the celebrity Top Chefs. This can be a great unifying experience for all levels within your organization.

Thinking Outside of the Bag – Leadership Training

Problem solving, hands-on management and delegating skills will be the focus of our Leadership challenge. You have only one bag of groceries from which to create a two-course meal while competing against your colleagues. This program is a fast paced, creative way to demonstrate the value of thinking outside the bag.
